

ISTQB Agile Test Leadership at Scale (CT-ATLaS) (2 days)

6 h / day

5-10 persons

FIN / ENG

ENG

The ISTQB® Agile Test Leadership at Scale (CT-ATLaS) certification focuses on how to organize and improve quality and testing across multiple teams in an agile organization. It also covers how to approach quality and testing at a strategic level in order to achieve higher business agility in an organization. CT-ATLaS covers how to scale testing and quality assurance efforts by fostering a quality mindset and culture across the organization. This includes shifting from a traditional test management approach typically used in sequential development models to a quality assistance approach which builds on Lean and Agile principles and values. It also includes how to adopt common Lean and Agile techniques and processes for analyzing and solving problems and how to use them to improve testing and quality in the organization.

- **Target group**

- People who work in an organization which is pursuing agility at scale or business agility, and who already understand agile and agile testing. This certification will be a great benefit for people working in roles such as: Test Manager, Head of Testing, Test Analyst, Quality Engineer, Quality Assurance, Quality Coach, Member of an Agile Team, Member of the leader group of multiple Agile Teams, Project Manager, Release Train Engineer, Scrum Master..

- **Prerequisites**

- To obtain this certification candidates must hold either a valid Certified Tester Foundation Level certificate 4.0 (CTFL 4.0) certification OR a valid Certified Tester Foundation Level certificate prior to the CTFL 4.0 plus a valid Certified Tester Foundation Level Agile Tester certificate, and have sufficient practical experience..
